EDUCATION

University of Madras

Master of Computer Application

Oct. 2022 – Dec 2024

Chennai, Tamil Nadu

EXPERIENCE

Webranc IT Solution

Frontend Developer

Feb 2024 – Present

Bangalore, Karnataka

- Developed and contributed to the Doctor App and Social Media App Admin Panel, implementing new features and enhancements.
- Optimized code caching and response times, leading to improved performance and efficiency.
- Enhanced user experience by designing and implementing a user-friendly interface, leading to an 80% increase in user engagement.
- Integrated new features and functionalities to ensure seamless application performance and scalability.
- Maintained clean, scalable, and maintainable frontend code while adhering to industry best practices and modern development standards.
- Applied higher-order functions to enhance code modularity, improving scalability and maintainability.

AspiraSys

Frontend Developer Intern

Mar 2023 – Sep 2023

Chennai, Tamil Nadu

- Built responsive web applications using React.js, ensuring high performance and scalability.
- Implemented mobile-first, cross-browser compatible user interfaces using Tailwind CSS, CSS3, and HTML5.
- Engineered client-side routing with React Router, improving navigation and page load speeds.
- Collaborated on real-time projects, demonstrating adaptability, teamwork, and problem-solving skills.
- Developed reusable React components, enhancing code maintainability and efficiency.

PROJECTS

Professional Portfolio Website | React, TypeScript, SCSS

- Designed and developed an animated, responsive portfolio web app using SCSS, showcasing a modern and engaging user interface.
- Implemented seamless UI/UX enhancements with smooth animations, ensuring an optimized experience across all devices.
- Structured and curated compelling content to effectively highlight personal brand, skills, and projects in a visually appealing format.
- Live Demo: portfolio-website-liard-delta.vercel.app

Food Bazaar App | React, Tailwind CSS, Swiggy API

- Integrated real-time Swiggy API data to dynamically display restaurant ratings, estimated delivery times, menu details.
- Implemented an optimized add-to-cart functionality with lazy loading, ensuring seamless performance and efficient resource management.
- Designed a high-performance UI using Shimmer UI, React Slick Slider, and Tailwind CSS, delivering a visually engaging and responsive interface.
- Live Demo: food-bazaar-app.vercel.app
