

MOHAMMED ADNAN

Senior Frontend Engineer | React.js · Next.js · TypeScript · Redux Toolkit

+91 9150706793 | mohammedadnan.3107@gmail.com | GitHub | Bengaluru, India

PROFESSIONAL SUMMARY

Frontend Engineer with 4 years of experience building high-performance, accessible, production-grade web applications using **React.js**, **Next.js**, and **TypeScript**. Specialized in **scalable component architecture**, advanced **state management** (**Redux Toolkit**, **Zustand**, **TanStack Query**), and Core Web Vitals optimization for enterprise and e-commerce platforms. Proven record of reducing feature **delivery time by 40%** and cutting production **UI defects by 90%** through reusable design systems and rigorous performance engineering. Comfortable owning the full request lifecycle, including **REST API integration** and cloud deployment (AWS, Docker, CI/CD), for product-based teams that ship fast.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

State Management: Redux Toolkit, Redux Thunk, Redux Saga, Zustand, TanStack Query (React Query), Context API, React Hook Form, Zod

UI & Styling: Tailwind CSS, SCSS, CSS Modules, Material UI, Shadcn UI, Ant Design, Responsive Design, WCAG 2.1 Accessibility, Design Systems, Atomic Design

Performance: Code Splitting, Lazy Loading, Dynamic Imports, React.memo, useMemo, useCallback, Bundle Optimization, Lighthouse, Core Web Vitals, SEO, Image Optimization

API Integration: REST APIs, GraphQL, Axios, Fetch API, JWT Authentication, OAuth 2.0, WebSockets

Backend (Supporting): Node.js, Express.js, MongoDB, Mongoose, MVC Architecture

Cloud & DevOps: AWS (EC2, S3, Lambda), Azure, Docker, Kubernetes, GitHub Actions, Jenkins, CI/CD, Vercel

Testing & Tooling: Jest, Playwright, Git, GitHub, Bitbucket, pnpm, npm, Vite, Webpack, Postman, ESLint, Prettier, SonarQube, Jira, Confluence

AI-Assisted Development: GitHub Copilot, Cursor AI, Claude AI, Prompt Engineering

PROFESSIONAL EXPERIENCE

Frontend Engineer — Nafi & Co

Jun 2025 – Oct 2025

Bengaluru, India

- Built and shipped 11+ production frontend applications using React.js, Next.js, and TypeScript, cutting feature delivery time by 40% through reusable component architecture and modular development patterns.
- Engineered scalable UI layers with React Hooks, Redux Toolkit, Zustand, and TanStack Query, improving development efficiency by 30% across teams.
- Integrated OpenAI-powered features (smart recommendations, document summarization, automated content generation) into React interfaces, consuming REST APIs backed by Node.js/Express.
- Reduced production UI defects by 90% and raised Lighthouse scores through code splitting, lazy loading, memoization, and dynamic imports.
- Supported CI/CD release pipelines (GitHub Actions, Jenkins, Docker) to ensure reliable, repeatable frontend deployments to AWS.
- Partnered with Product, UI/UX, and QA in Agile Scrum to ship high-quality releases on schedule.

Frontend Engineer — Webranc IT Solution

Jan 2024 – Apr 2025

Bengaluru, India

- Developed a multi-tenant e-commerce admin dashboard in React.js and TypeScript, managing 3,000+ product SKUs across multiple business modules.

- Built reusable, themeable UI components with Redux Toolkit and Tailwind CSS, consumed by REST APIs for products, orders, users, and inventory.
- Improved application performance by 35% using TanStack Query, React.lazy, Suspense, and efficient API caching strategies.
- Deployed frontend applications to Azure and AWS via Docker, Kubernetes, and CI/CD pipelines, cutting deployment time by 25%.
- Delivered WCAG 2.1 AA-compliant, cross-browser UI (Chrome, Firefox, Safari, Edge).
- Contributed to Agile ceremonies, code reviews, and production support for enterprise-scale releases.

Frontend Engineer — SBD Apparels

Aug 2021 – Nov 2023

Remote

- Built responsive, high-traffic e-commerce interfaces using React.js, TypeScript, Redux, HTML5, and CSS3 across desktop and mobile.
- Developed reusable UI components integrated with REST APIs for product catalog, cart, checkout, authentication, and order management.
- Improved application performance by 30% via lazy loading, image optimization, and React.memo, lifting Core Web Vitals and Lighthouse scores.
- Collaborated with backend engineers on API integration, async data handling, and error-boundary strategies.
- Implemented accessible, cross-browser-compatible responsive layouts following modern frontend best practices.
- Maintained code quality via Git workflows, ESLint, and peer code reviews within Agile Scrum sprints.

PROJECTS

[Portfolio Website](#)

Tech Stack: Next.js, React.js, TypeScript, Tailwind CSS, Framer Motion

- Designed and developed a modern portfolio website using **Next.js, React.js, TypeScript, and Tailwind CSS**, showcasing projects, technical skills, and professional experience with a responsive, component-driven architecture.
- Optimized **SEO, Core Web Vitals, image loading, and Lighthouse Performance (95+)** using Static Site Generation (SSG), semantic HTML, and reusable components, with deployment on **Vercel**.

[Food Delivery App](#)

Tech Stack: React.js, Next.js, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, REST APIs.

- Developed a full-stack food ordering platform using **React.js, Next.js, TypeScript, Node.js, Express.js, and MongoDB**, featuring restaurant browsing, product filtering, shopping cart, user authentication, and order management.
- Integrated **REST APIs**, JWT-based authentication, reusable UI components, lazy loading, responsive design, and deployed the application on **Vercel**, achieving **92+ Lighthouse Performance** through frontend optimization.

EDUCATION

Master of Computer Applications (MCA)

University of Madras, Chennai, India
