MOHAMMED ADNAN

Full Stack Developer (MERN) | React.js · Next.js · Node.js · Express.js · MongoDB · AWS

+91 9150706793 | mohammedadnan.3107@gmail.com | GitHub | Bengaluru, India

---

PROFESSIONAL SUMMARY

Full Stack Developer with **5+ years of experience** designing, developing, and deploying scalable web applications using the **MERN Stack (MongoDB, Express.js, React.js, Node.js)** along with **Next.js, TypeScript, and JavaScript**. Experienced in building enterprise-grade frontend applications, RESTful APIs, authentication systems, database design, cloud deployments, and AI-powered applications.

Strong expertise in reusable component architecture, React Hooks, Redux Toolkit, Zustand, TanStack Query, backend API development, MongoDB schema design, JWT authentication, role-based authorization, and scalable application architecture. Hands-on experience with **AWS cloud services, Docker, Kubernetes, CI/CD pipelines, GitHub Actions, Jenkins, and production release management**.

TECHNICAL SKILLS

Category	Technologies
Frontend Technologies	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
State Management	Redux Toolkit, Redux Thunk, Redux Saga, Zustand, TanStack Query (React Query), Context API, React Hook Form, Zod
UI & Styling	Tailwind CSS, SCSS, CSS Modules, Material UI, Shadcn UI, Ant Design, Responsive Design, WCAG 2.1 Accessibility, Design Systems, Atomic Design
Performance & Optimization	Code Splitting, Lazy Loading, Dynamic Imports, React.memo, useMemo, useCallback, Bundle Optimization, Lighthouse, Core Web Vitals, SEO, Image Optimization
API & Authentication	REST APIs, Axios, Fetch API, JWT Authentication, OAuth 2.0, WebSockets
Backend	Node.js, Express.js, MongoDB, Mongoose, SQL, GraphQL Server, MVC Architecture
Cloud & DevOps	AWS (EC2, S3, Lambda, RDS), Docker, Kubernetes, GitHub Actions, Jenkins, CI/CD, Release Management, Vercel.
AI & Developer Tools	GitHub Copilot, Cursor AI, Claude AI, Prompt Engineering, AI-Assisted Development
Development Tools	Git, GitHub, Bitbucket, pnpm, npm, Vite, Webpack, Postman, ESLint, Prettier, SonarQube, Husky, Jira, Confluence

PROFESSIONAL EXPERIENCE

Full Stack Developer | Nafi & Co | Bengaluru, India

Jun 2025 – Dec 2025

- Developed and delivered **11+ enterprise business applications** using **React.js, Next.js, TypeScript, Node.js, Express.js, and MongoDB**, reducing feature delivery time by **40%** through reusable architecture and modular development.
- Built scalable frontend applications using **React Hooks, Redux Toolkit, Zustand, TanStack Query**, and reusable component libraries, improving development efficiency by **30%**.
- Designed and developed **RESTful APIs** using **Node.js** and **Express.js**, integrated **MongoDB** with Mongoose, and implemented secure **JWT Authentication** and **Role-Based Access Control (RBAC)**.
- Integrated **OpenAI APIs** and **AWS** to build AI-powered features including smart recommendations, document summarization, and automated content generation.
- Optimized application performance using **code splitting, lazy loading, memoization, dynamic imports, and API optimization**, reducing production UI issues by **90%** improving Lighthouse scores.
- Managed production deployments using **AWS, Docker, Kubernetes, GitHub Actions, and Jenkins**, participating in CI/CD automation, release management, and environment configuration.
- Collaborated with Product Managers, UI/UX Designers, QA Engineers, and Backend Developers in Agile Scrum teams to deliver high-quality software on schedule.

Full Stack Developer | Webranc IT Solution | Bengaluru, India

Jan 2024 – Apr 2025

- Developed a scalable **multi-tenant e-commerce admin platform** using **React.js, TypeScript, Node.js, Express.js, and MongoDB**, managing over **3,000+ product SKUs** across multiple business modules.
- Built reusable frontend components with **React.js, Redux Toolkit, Tailwind CSS**, and developed backend REST APIs using **Node.js** and **Express.js** for products, orders, users, and inventory management.
- Designed MongoDB collections and optimized Mongoose queries while implementing secure **JWT Authentication**, RBAC, and API validation for enterprise applications.
- Improved application performance by **35%** using **TanStack Query**, React.lazy, Suspense, lazy loading, bundle optimization, and efficient API caching strategies.
- Deployed frontend and backend applications on **Azure** and **AWS**, using **Docker, Kubernetes, GitHub Actions, Jenkins**, and CI/CD pipelines to streamline production releases and reduce deployment time by **25%**.
- Ensured WCAG 2.1 AA accessibility compliance and cross-browser compatibility across Chrome, Firefox, Safari, and Edge.
- Participated in Agile Scrum ceremonies, code reviews, production support, release management, and cross-functional collaboration to deliver scalable enterprise solutions.

Frontend Engineer | SBD Apparels | Remote

Aug 2020 – Nov 2023

- Developed responsive e-commerce applications using **React.js, TypeScript, Redux, HTML5, CSS3, and JavaScript**, delivering seamless user experiences across desktop and mobile platforms.
- Built reusable UI components and integrated **REST APIs** for product catalog, shopping cart, checkout, user authentication, and order management.
- Improved application performance by **30%** through **lazy loading, image optimization, React.memo, and component memoization**, enhancing Core Web Vitals and Lighthouse scores.

- Collaborated with backend developers to integrate APIs, manage asynchronous data fetching, handle errors, and optimize frontend performance.
- Implemented responsive layouts, accessibility best practices, and cross-browser compatibility using modern frontend development techniques.
- Maintained code quality through **Git workflows, ESLint, peer code reviews**, and Agile Scrum development practices.
- Participated in feature development, bug fixing, sprint planning, testing, and production releases while working with cross-functional teams.

EDUCATION

Master of Computer Applications (MCA)
University of Madras, Chennai, India
